

MEETING REPORT

WEEK 3

Team Name: Undergraduate Lab Portal

Date of Meeting: 21/03/2026

Start Time: 11 AM

End Time: 12 AM

Meeting Location: Epoka Univesity

Moderator: Sibora Kociu

Recorder: Redi Cuka

Other Members Present: Nikol Isaku, Arbiana Muka, Megi Sollaku, Arlind Disha, Arli Asllani

Members Absent: -

Topics Discussed:

This week, we further clarified the system requirements by defining in more detail what the platform should do and the services it must provide. We organized the system architecture and expanded the user scenarios, use cases, and requirements (both functional and non-functional) for each actor. We created use case diagrams for every actor.

Progress Report

1. **Sibora Kociu + Redi Cuka:** Continued working on the Professor user role by defining user scenarios, use cases, and both functional and non-functional requirements, as well as creating the corresponding use case diagram and the final diagram for all actors.
2. **Arlind Disha + Arli Asllani:** Improved the Admin user role by defining user scenarios, use cases, and both functional and non-functional requirements, and by developing the use case diagram.
3. **Nikol Isaku + Arbiana Muka + Megi Sollaku:** Expanded the Student and External Programs & Partnerships Office roles by defining user scenarios, use cases, and both functional and non-functional requirements, and by creating the use case diagrams for both roles.

Conclusion:

During this week, the overall structure of the platform was improved, and visualization was enhanced through use case diagrams and requirements, making the system more concrete and easier to understand.
